A CORNING TARIFF "REFORMER."

Herkov Court.—Governor McCorkle of West Virginia is the frankest Democratic Tariff reformer we have yet come across. His notion of genuine reform, as expounded to Professor Wilson and his associates, is to cut and slash the duties that benefit Yankee industries and let all the duties that benefit West Virginia industry alone. McCorkle is a muckraker.

THE FIFTY THOUSAND DOLLAR AMBASSADOR.

Merrill Hobson—Barney White, editor of *The New York Evening Post*, today interviewed, admits the truth of the story that he and Richard Watson Gilder, editor of *The Century*, hearing that James J. Van Allen had contributed \$50,000 to Cleveland's campaign fund, and expected the Italian Mission for it, agreed to give \$1,000 each, and raise the rest of the money among Mr. Cleveland's friends, so as to free him from obligation. Mr. White says in *The World*:

Mr. Gilder and myself agreed that the appointment was worth the trouble, but to Mr. Allen a thousand dollars for the position, the fact that he had paid \$40,000 for a position of Governmental honor was enough to deter him from receiving that position. We agreed to give \$1,000, and so did Mr. Gilder. I visited several capitalists, whose names I do not care to mention, and convinced them that the sum of \$1,000 would be a great sum at once, and without publicity, providing Mr. Van Allen would cease to be a candidate for office.

We were the muckey not raised?

You will excuse me for not answering that question.

The story is that the President objected.

Mr. White adds:

I offered to contribute \$1,000 to a fund to give back to Mr. Allen the \$50,000 he gave. You can quote me as saying that he did contribute \$50,000 to the Presidential campaign fund. You can also say that I do not believe the appointment of Mr. Van Allen should be condemned by the Senate.

These statements by Mr. White are, as the case stands, terrible admissions. The President seems to have thought the delinquency of his friends too acute, and he has bestowed the office according to the brains. Of course, the President and Mr. Whitney exercise their powerful influence over the public mind, and it will be one of the most conspicuous features of Administration reform. Mugwumpery is, however, so rippled up that it must henceforth, when it pronounces in conscious virtue, step on its trailing bowels.

NO REASON FOR ALARM.

New York Press.—The bill for the unconditional repeal of the purchasing clause of the Sherman Act, unless conditions change materially within a few days, will not pass the Senate. The blame for this failure must be shared equally by the hysterical newspaper press of this city and the Cleveland wing of the Democratic party. The wanton attacks upon silver, which a large majority of them believe, with gold, should form the basis of the currency of the United States, and the unjustifiable onslaught upon Western and Southern interests, on Western and Southern statesmen, have served to inject such a deep gloom so much fear that a conditional repeal is now almost an impossibility.

Spurred by unjust attacks, incensed by having laid at their doors all the ills directly traceable to Democratic declarations on the Tariff, the advocates of silver and of bi-metallism can hardly be blamed for making a firm stand for what they believe to be a fair settlement of the question. Nor has the situation been improved by the bitter partisan attitude of the House of Representatives on the Federal Election Repeal bill and the determination on the part of the Free-trade fanatics to push through a reduction of customs duties in face of the most widespread industrial depression brought by the first year of approaching Tariff legislation. With the Cleveland wing of the party in power, its mouth-hanukkah sensational newspapers and the Southern free ballot haters have together for compact and impudent triumvirate of advanced iniquity, with almost unlimited power for mischief and no capacity for constructive legislation.

Disappointing as all this must be to the business interests of the country there is really no cause for alarm. The money scare, or panic, has almost passed, and suspicion has dispersed the cloud of ignorance with which it was enveloped by the one-sided harangues against silver. The Free-trading wing are thus responsible of the Federal Election bill and its repeal of the McKinley Law. With those lenses out of the way it will not be difficult to reach a satisfactory conclusion in regard to the currency, a conclusion that will consider alike gold and silver and that will be broad enough to comprehend the varied needs and interests of this rapidly developing Republic.

Before we had protection a fraud,

Now we are left to our own resources.

And well may, without mirth—"the dinner-

No one will grumble now, one will shriek,

For I will just give us work, Grover, give us some work.

It is true that the Tariff was rotting us,

But our prosperity could not endure.

Since we all voted for it, now let it trample that, not the first man of us has any

Expect in condition, for it's true that we all

Want to live, and that we all want to eat.

So you'll find us in mud, in mud, in mud,

And stink, in mud, in mud, in mud,

And sweat, in mud, in mud, in mud,

And work, in mud, in mud, in mud,

Where is That Banner Now?  
*Greenville (Ind.) Review.*—During the last campaign the Democrats of this city displayed a banner with their predecessors bearing this inscription:

VOTE FOR GROVER CLEVELAND  
AND GTR.  
\$1.25 BUREAU  
D. C. WEAVER.

A liberal reward will be paid for that banner at this office, and no questions asked.

There is food for curious reflection on modern civilization in the statement that hereafter armed men will accompany every mail or express car running out of Chicago.

It is significant that none of the CLEVELAND organs are appealing to the Democratic majority in the House of Representatives to "be patriotic" just at present. They know their audience.

The greatest joke of the season is the statement that VAN ALLEN added \$50,000 to the Democratic campaign pot because he is opposed to "class legislation." American workmen in particular will appreciate the joke.

The Philadelphia Ledger, the special Pennsylvania organ of the Administration, prints an interview with a prominent manufacturer of Germantown, whom it describes as "conservative and not an alarmist," in which this statement is made:

The trade was in comparatively good condition, profits were good, and business had adjusted itself to the Tariff. But there was a change of Administration, and with it came uncertainty as to what the new world would do, and with that it declared for revision of the Tariff. This is at once unsettled. The outlook is very gloomy in Germantown and in the mills, the dispatches to be received there will be tinkering with the Tariff at the session, while will probably open the way to a free market and that means stoppage of many of the mills which are now running.

In every State and every protected industry the tale is the same. The threat of the Tariff smashers to revolutionize every economic condition has put a brake on the factory wheels, lessened the rewards of labor, and transformed a future bright with the promise of prosperity into an outlook of distress and gloom.

It is superfluous to make lengthy notices of this famous institution. Its name and home have gone abroad in the land, and the world over, and it attracts to itself a numerous and varied crowd of people and the finest exhibitions of stock. Professor George M. Cohan, of the famous Cohan & Robins, is the prime mover, and his name is at the top of the list of signers of Mr. Barker's letter. He has also sent a letter over his own name to nearly all the manufacturers in the city asking them to sign to Mr. Barker's letter, which he included, and if they approved of it to sign a blank slip and send their names to Mr. Barker.

While holding these views they also believe that it would be a mistake to demand that silver tax. The manufacturers believe that in many respects their interests are allied with the mine owners of the silver states. It was this belief which prompted the movement among the Philadelphia manufacturers to give encouragement to the silver miners to continue to continue the white metal as a part of the currency of the United States.

While the Manufacturers' club, as an organization, has not committed itself to the movement, many of its leading members are in favor of it. James P. Barker is the prime mover, and his name is at the top of the list of signers of Mr. Barker's letter. He has also sent a letter over his own name to nearly all the manufacturers in the city asking them to sign to Mr. Barker's letter, which he included, and if they approved of it to sign a blank slip and send their names to Mr. Barker.

## DASTARDS' PLOT.

October 10 Was the Date Fixed  
By Austrian Dynamiters

To Blow Up the Reichsrath and Other  
Important Buildings in Vienna.

Thousands of People Would Probably Have  
Been Killed—Vienna Police Assert That  
Chicago Anarchists are in the Plot—  
Important Papers Captured.

VIENNA, Sept. 29.—In spite of efforts to  
neutralize the arrest in this city on  
September 23 of a number of anarchists,  
the fact remains that the police of  
this city did upon that occasion  
discover the greatest anarchist  
conspiracy since the time of Guy  
Fawkes in England. On September 23  
the police, when they found in the  
house on Siebenbrunner strasse, in this  
city, cases of revolvers, bombs ready  
for loading, explosives, dynamite with  
which to pack the bombs and coats  
with leather linings, to which hooks  
for suspending bombs were attached,  
also discovered in the walls and furniture  
of the house where the coats  
were found, documents of a  
most important nature. The Austrian  
police say that the investigation  
made since September 24 show that the  
anarchists intended to smuggle a quantity  
of dynamite into the underground  
portion of the railroad system when  
that was met, on October 10, to blow  
the rothesrath sky high and strike  
terror into the hearts of the enemies of  
the independent group of socialists, to  
which the anarchists belonged on Sep-  
tember 23.

But the Bechuan was not the only  
building the anarchists intended to  
blow up on October 10. They had  
their plans also fully prepared to blow  
up the town hall. In this building over  
a thousand people would have been  
killed if the plot had been carried out.  
This was not the full extent of  
the terrible conspiracy discovered.  
A number of other important  
buildings on the Ring strasse, one of  
the main streets in Vienna, were  
deemed to destruction with everybody  
in them, on the day appointed for the  
anarchist outbreak. The university,  
another building, was also to be under-  
mined with dynamite. So were the fam-  
ous art galleries, Museum of Vienna, and  
other fine galleries of a similar nature.  
The Hofburg theater opposite the Rathaus,  
was also marked out for dynamiting.

Now comes, so far as the United  
States is concerned, the strained part  
of the whole conspiracy. The bombs  
of the Vienna anarchists were manu-  
factured according to the formula pre-  
pared by Herr Moss of New York.  
This is not all. The police of this city  
insist and claim to be able to prove  
that the anarchists, who were anarchists  
engaged in the terrible conspiracy  
against the city of Vienna were  
connected with the anarchists of Chi-  
cago. This is not a political theory,  
the authorities of both the countries of  
the anarchists of Chicago with those of  
this city, they insist, has been fully  
established beyond any doubt. Corre-  
spondence between the anarchists here  
and those in Chicago is said to be in  
the hands of the Austrian police, who,  
it would seem, must have commun-  
icated with police of Chicago on the  
subject.

Glass Factory at Wheeling Closed.  
WHEELING, W. Va., Sept. 29.—The off-  
icers of the United States Glass Co., telephoned from Pittsburgh, the coun-  
try seat of the company, that the  
glass factory of "Hill," in this  
city, to allow the fires in the furnaces  
to go out. These fires have been kept  
burning since July 1, when the regular  
summer shut down began, so that if an  
order came to the glass factory to resume  
the work the furnaces would be put on at  
a week's notice. The furnaces were  
filled with pots and all these are lost,  
amounting to \$5,000.

Two Desperadoes bite the Dust.

ALBUQUERQUE, N. M., Sept. 29.—In a  
battle between two of its posses and  
two outlaw desperadoes near Valdez,  
the latter, Almy Dimino and R. G.  
Ullris, were shot and killed. A few  
weeks ago the cowboys attempted to  
wreck a passenger train on the Atlantic & Pacific railway, and the sheriff's  
posse had been on the trail ever since.

Locomotive Runaway.

LOXLEY, Sept. 29.—The correspond-  
ent of the Chronicle at Rome says:  
Signor Bossman, the Italian ambas-  
sador to France, who is in Rome, gives  
encouraging account of the feeling in  
France toward Italy. In military cir-  
cles it is believed that the future  
relations between France and Italy are  
considered dangerous to peace.

An Absconder.

ST. CROIX, Minn., Sept. 29.—A. H.  
Pellet, member of the common council  
of Sauk Center, and a prominent can-  
didate for reelection of the city council  
last October, four months ago,  
ostensibly for the World's fair and  
Washington. It transpired Thursday  
that he has run away, and is short  
something like \$40,000.

Wheat Will Advance Here.

LONDON, Sept. 29.—In consequence of  
the success of the English in the invasion of  
the prides of bread, a local decree has been  
published authorizing the im-  
portation of 150,000 tons of foreign  
wheat until July 31 at a duty of 15 re-  
per kilo.

Insane Veterans.

VASQUEZ, Mich., Sept. 29.—Charles  
Mastri, an aged veteran suspended  
from the total disability pension roll,  
is insane. He is without means, and  
imagines he is on his way to Wash-  
ington to get a back pension. He was all  
right when he went to the A. R. En-  
campment.

French Legionaries Fleet Strong.

PARIS, Sept. 29.—The French govern-  
ment intends to make Prince Henri  
d'Orleans a Knight of the Legion of  
Honor in recognition of geographical  
researches in the east.

**A CURIOUS CALCULATION.**

Round the World 206 Times.

An eminent physician has made a curious  
mathematical calculation in giving the  
width of the human heart in inches.  
He shows that a lifetime of running  
the blood as it passes through the heart is  
thrown a distance of 5,150,880 miles, which  
in a constant stream, would round  
the world 206 times.

Crimin Murder Case.

CHICAGO, Sept. 29.—F. W. Smith, who  
pleaded guilty to the charge of attempting  
to bribe jurors in the Crimin murder  
trial was sentenced by two years in the  
penitentiary by Judge D. C. Connelly,  
attorneys hastily prepared a petition of  
 habeas corpus and took it before Judge  
McConnell, who issued the writ, making  
it returnable Thursday at 10 o'clock.

Rough on Spots.

POTTSVILLE, Pa., Sept. 29.—Twenty  
persons, men and women, for competing in  
and arranging for prize fights in this city  
have pleaded guilty and each was  
sentenced to pay a fine of \$1,000 or im-  
prisonment in the state prison for 900  
days. This was the lightest sentence  
provided by law.

Keeping in view this constant strain on  
the heart, and taking into consideration the  
abuse it receives from over-exertion, al-  
though it hardly becomes affected, refuse to  
perform its work, and die? The fact can be readily understood that one in  
four has a weak heart, and that the heart  
cannot stand a strain on its altered condition  
in the slightest degree manifested.

Reader, if you have any reason whatever  
for believing your heart to be affected, you  
should call in a doctor at once.

Many persons who are suddenly ill  
have never suspected its presence.

Dinner, Penn., Sept. 29.—Joseph  
McCracken, a young man, is in jail at  
Abingdon, Va., for killing his father, Robert  
McCracken. They quarreled about a  
crop when the young man hit his father a blow on the  
head with a strop, from which death  
resulted.

Burglars Fire a Dwelling.

JEFFERSONVILLE, Ind., Sept. 29.—The  
residence of R. A. Bennett, was looted  
by burglars Wednesday night. The  
robbers fired the building, but the  
flames were subdued before they  
got outside.

"For 30 years I was seriously troubled with  
a sore throat, and now I am free from all complaints."

While suffering from a severe attack of hay fever  
I consulted a physician, but he advised me no relief, I was induced to buy some  
medicine, but it did not help. I then turned to New Haven Cure; the first bottle greatly relieved  
my trouble, but I could not get the second bottle I took altogether so immediately benefited  
me that now I am free from all complaints."

Joseph Brady, Piermont, N. Y., writes:

"I am a physician, and have been a  
practitioner for 30 years. I have never  
had a patient cure himself with any  
remedy, except my own."

Mr. Miles New Haven Cure is sold on a  
postage paid basis, and the price is \$1.00 per  
bottle. Each bottle receives a  
label, which reads: "Price \$1.00 per  
bottle, six bottles \$6.00, express prepaid." It  
is usually contained in a  
decorative box.

"Please send me a sample of your  
medicine, and I will let you know what  
you think of it."

## EXPRESS TRAIN

On the Land N. Bond Wrecked and Robbed  
by Bandits at Gulfport, Miss.

MOSSEY, Ala., Sept. 29.—Wednesday  
night No. 4 through train north-bound  
on the Louisville & Nashville, consisting  
of mail, baggage, express, two coaches  
and a sleeping car, which left New Orleans at 7:30 p. m., was wrecked  
by bandits, at Gulfport, Miss.

The train was running 40 miles an  
hour when it reached Gulfport, and it  
struck an obstruction which hurled the  
entire train down an embankment.

The killed are three Negroes,  
names unknown, who were killed out-  
right.

The injured are Frank Coffin, engi-  
neer, Macie, severely injured to head;  
George Moore, fireman, New Orleans;  
John Hughes, mail agent, New Orleans, head  
crushed; Joseph Hughes, mail agent,  
Mobile, hurt internally.

As soon as the accident occurred ap-  
pealed to the physicians were sent  
out from Mobile and New Orleans, and  
everything done for the relief of the  
sufferers, who arrived in the city at 11  
a. m.

This is the second attempt at the  
attempt to wreck a train on the  
Louisville & Nashville, the first being unsuccessful.

There is no doubt of an attempt at  
robbery, as the mail sack, which was left  
on the track, the train not stopping at  
Gulfport, was found half a mile in the  
woods, gutted and its contents scattered.

A posse is scouring the woods for the  
wreckers, and if captured they will  
doubtless be lynched.

## SEMI-MONTHLY PAY.

Pennsylvania Factory Inspector to Enforce  
the Law.

BELLEVILLE, Pa., Sept. 29.—The min-  
ers as well as the operators throughout  
the Center and Clearfield district have  
been summoned to appear before the Coal  
Watchmen will visit that region early  
next week in reference to the demands of  
the miners to take action against  
those operators who are breaking the  
semi-monthly pay law.

The miners insist that they have not  
yet received pay for work done in July.  
Just what effect the prosecution of  
operators at this time would have it is  
hard to conjecture. The demands for  
prosecution of operators entirely  
remain employed by the coal miners.  
The large operators have paid their  
miners according to agreement and  
a prosecution now to compel them to  
observe the semi-monthly pay law  
would mean the closing down of nearly  
all the mines in the district.

MINES OWNER'S SPEECH.

He Fares a Strike With His Tongue and  
His Purse.

LOWELL, Mass., Sept. 29.—A mass meeting  
of the strikers in the Chesterfield  
Derbyshire was held Thursday. The  
principal speaker was Thomas Bayley,  
member of the house of commons  
for the Chesterfield com-  
monwealth. Mr. Bayley was one of a  
few members of parliament who a few  
days ago, guaranteed the repayment of a  
loan of \$100,000, negotiated by the  
Derbyshire miners association. Mr.  
Bayley told the men to remain faithful  
to the miners, but that the miners' re-  
lief was not to be obtained by a strike.  
He was opposed to accepting a re-  
duction of wages, and pledging faith-  
ful adherence to the federation.

PEOPLES NO. TWO.

PARIS, Sept. 29.—The Eclair, Thurs-  
day, announced the discovery of a  
secret society. Art metal, furniture,  
wash brushes, oils for painting, ma-  
chinery, etc., white enamel for frames,  
screens, etc., black enamel for fire  
fronts, etc., for sale by

TRAVELING MAN SUCCESES.

WHEELING, W. Va., Sept. 29.—Wm. McCombs, formerly a prosperous busi-  
ness man of this city, but recently  
disabled by a fall, and confined to a  
wheel chair by shooting himself  
through the head in the St. Charles  
hotel Thursday morning, McCombs  
stepped before a mirror and took deliberate  
aim. Death was instantaneous.  
He had been drinking hard for several  
days.
